(5) The Executive Officer shall furnish, from time to time, to the Board such statistics and other information as may reasonably be required in connection with the operation and financing of the Scheme.

(6) If a registered employer fails to make the payment due from him under sub-clause (1) or under clause 34(4)(i) any other amount due and payable to the Board in any other capacity or account within the time prescribed by the Executive Officer, the Executive Officer shall serve a notice on the employer to the effect that unless he pays his dues within three days from the date of receipt of the notice, the supply of registered Dock Clerical and Supervisory workers to him shall be suspended. ## SCHEDULE IV

[See clause 27]

The minimum number of days in a month for which wages are guaranteed should be assessed annually on the basis of the average employment during the immediately preceding 12 months according to the following procedure :—

- (a) The total number of man-shifts worked every month by registered Dock Clerical and Supervisory workers, in the Reserve Pool should be recorded.
- (b) The effective strength of registered Dock Clerical and Supervisory workers in the Reserve Pool on all the working days of the month should be recorded.

The effective strength of registered Dock Clerical and Supervisory workers in the Reserve Pool on a particular working day shall be;

The number of registered Dock Clerical and Supervisory workers on the Reserve Pool registered on that day.

Number of registered Dock Clerical and Supervisory workers in the Reserve pool on authorised or unauthorised leave plus number of workers in these categories who died or whose services were terminated on that day.

- (c) The effective strength of registered Dock Clerical and Supervisory workers on all the working days in a month obtained under (b) above should be added up and divided by the number of working days in the month to yield the effective strength of these workers during the month.
- (d) (a) should be divided by (c) to yield the average employment per worker per month in these categories.
- (e) The averages obtained under (d) above for 12 consecutive months should be added up and divided by 12. The average so obtained shall be fixed as the minimum guarantee for the next 12 months.

For clarification, an example is given below :—

Suppose that an assessment is made in June, 1956 and suppose the effective strength of registered Dock Clerical and Supervisory workers in the Reserve Pool and the man-shifts worked by them during the period June, 1955 to May, 1956 are as shown under columns (2) and (3) of the Table below :—

TABLE

| March "      | 3600                | 54,600                         | 15                                       |
| April "      | 3500                | 56,000                         | 16                                       |
| May "        | 3800                | 64,600                         | 17                                       |

Column (3) divided by column (2) will show the average employment per worker per month and this is shown in column (4) of the Table.

The minimum number of days in a month for which wages should be guaranteed during the period June 1956 to May 1957 will be—

$$12+13+15+16+16+17+17+13+14+15+16+17=15.08$$

After rounding to the nearest day=15 days

Although this average has been calculated for the lowest categories of workers only, it will apply to all the categories of registered Dock Clerical and Supervisory workers.

Similar calculation should be made in June, 1957 and thereafter every year. If the average number of days in any year works out to be less than the minimum number of days for which wages have already been guaranteed, the latter number will not be reduced. In other words, the minimum number of days in a month for which wages are guaranteed will progressively increase but will never be decreased.
